Net-Verse™ Cabinets
Versatility Made Simple

BIG DATA

Universal Design Converts Quickly to a Network or Server Cabinet

Net-Verse™ Cabinets

Net-Verse™ Cabinets are the preferred choice for applications that require maximum flexibility in data center, enterprise or colocation deployment.

Data centers are under immense pressure to increase their operational efficiencies and overall operating OpeX ensuring that the data center is operating 24/7 without fail. With increased pressure for premium cabinet solutions within Data Center, Enterprise, and Colocations, there is a need to have a simple cost-effective cabinet solution.

Net-Verse™ Cabinets provides a 16 model offering matching current IT applications. This standard offering matches server, switch and network applications with flexible mounting options.

Fill your data center with versatile cabinets – in the most efficient and cost-effective way – Look no further than Panduit® Net-Verse™ Cabinets.

Features and Benefits:

- Fully adjustable e-rail offers application flexibility
- Optional in-cabinet blanking panels are fully compatible with Panduit Universal Aisle Containment System maximizing airflow and thermal efficiency
- Multi-point locking doors and locking side panels provides enhanced security
- 2 full height multi purpose PDU/cable management brackets for mounting PDUs or lashing cables.
- Load ratings: static – 3000 lbs. (1360 kg); rolling – 1100 lbs. (500 kg)
- Cabinet sizes available: Width: 600mm, 800mm; Depth: 1000mm, 1200mm; Height: 42 RU, 45 RU

Integral vertical blanking panels in the 800mm wide cabinet offers 4 zero RU vertical openings that improve floor space utilization by up to 10%

Bonded doors and side panels provide a complete bonded cabinet for protection of equipment and personnel

Fully adjustable equipment rails with easy to read horizontal markings offer application flexibility, allowing you to make a network or server cabinet.

Large brush cable entry minimizes hot air recirculation and allows for large bundles of cables
